FUCHSIAS

Visit our gardens in Ross, seventeen miles north of San Francisco across the Golden Gate Bridge. We have specimen plants of all the fuchsias listed in this catalog, growing and named, in our gardens for display and bloom. Also shown are the various ways in which they can be grown, such as fuchsia standards, hanging baskets, etc. Potted plants range in price from 60 cents in 4 inch pots up to \$10.00, according to size of plant.

Read carefully before ordering. Write plainly. Print your name and address clearly. Remit order by check or money order. Currency or coins are acceptable but we cannot be responsible for loss.

RETAIL PRICES

All our new 1957 introductions in $2\frac{1}{4} \times \frac{1}{2}$ pots \$.75 each.

As we specialize in the newer varieties, all 1956 introductions by other hybridizers may be ordered by mail or obtained at nursery.

All 1956 varieties in $2\frac{1}{4} \times \frac{1}{2}$ inch pots \$.50, except patented and copyrighted varieties which are \$.75.

All other varieties listed in $2\frac{1}{4} \times \frac{1}{2}$ inch pots \$.35 each. We find a well rooted plant this size stands shipping best with less shock.

Special offer of 12 plants, in $2\frac{1}{4} \times \frac{1}{2}$ inch pots, all named varieties, our selection, \$4.00. List varieties you already have and we will not duplicate.

At times we may be temporarily out of certain varieties, so when ordering please name one or more substitute plants for second choice.

We guarantee all plants to be in perfect condition when shipped. Unless otherwise ordered, all plants are sent express collect. If you wish to have your order sent by parcel post, please be sure to so indicate and to include \$.50 to cover mailing charges. Packing free.

Minimum shipment \$2.50. On all orders for delivery within California, please add the 3 percent California Sales Tax.

PLEASE REMEMBER WE ARE CLOSED ON THURSDAYS.

We are members of AMERICAN FUCHSIA SOCIETY and CALIFORNIA ASSOCIATION OF NURSEYMEN.

NOTE — We are a "Pinto Tag" nursery;
this assures prompt delivery.

1957 Introductions

by

Muriel Waltz

1

We are again introducing five new varieties all picked for color, form and quality.

BLUEBIRD. A new color in the naturally trailing variety very much admired by visitors to our garden. Also the nurserymen who usually prefer all doubles.

The short tube and long pointed slender sepals are snowy white. The semi-double corolla of deepest violet blue has scalloped edges which overlap, attached to base of sepals are some extra petals as flower matures, these petals turn a rosy hue as does the corolla. The corolla petals stay folded, giving a trim appearance to bloom. A very pretty basket.

FIREBALL. A large double naturally trailing variety that is unusual for its many color changes as flower matures.

The short tube and broad upturned sepals are bright carmine-tipped green. The buds and corolla are a ruddy purple with splashes of carmine at base of petals as flower matures. Some petals turn a dark blueish purple, which again change into a red of great brilliancy.

This fuchsia is outstanding in every way including doubleness color and freedom of bloom.

MABELLE EDWARDS. A single clear pink bell shaped flower with long drooping stems. This Fuchsia has daintiness and charm named for a charming lady, Mrs. John Paul Edwards.

Buds are long white and pointed. Sepals of frosty white curl upward, corolla of pale pink has four overlapping petals

with a few folded petals inside. The outer petals are scalloped which flare slightly as flower ages.

Upright growth, medium height, flower clusters are well displayed. Needs no pinching to make a good pot plant.

ROSECREST. A large double Fuchsia, with striking and unique contrast between the color of buds and the open flowers. The medium sized tube and broad upturned sepals are white slightly tinged with palest pink underside. The open buds and corolla are a deep lilac mauve turning bright carmine rose as flower matures.

The form and size of flower is similar to Silverado while the color of matured flower resembles the Indian.

Foliage medium size and glossy. Flowers are borne in great profusion on compact bushy plant.

SIERRA BLUE. A fine large silvery blue double variety particularly noteworthy for its beautiful coloring and form.

The short tube and wide upturned sepals are white. outer side flushed palest pink underside. The corolla a full double of silver blue gradually becoming soft lilac as the blossom ages.

Grown as an upright, the graceful arching branches display the blooms beautifully.

May be grown as a basket with proper pinching.

1957 Introduction

by

Weichart Fuchsia Gardens

We are delighted to introduce for Weichart Gardens of Fort Bragg, a sport of Enchanted which they have named Fort Bragg.

FORT BRAGG. A sport of the beautiful fuchsia Enchanted (one of the best natural trailers), identical both in form of flower and habit growth.

The tube and broad upturned sepals are a rose shade, the large double corolla of pale lavender rose has a blueish tinge, the petals are slightly veined with rose. A beautiful basket.

DOUBLE FUCHSIAS

BERKELEY. The flowers are basically brilliant Tyrian Rose but there is considerable seasonal variation in their coloring with marbling and edgings of variety intensity in the cooler season. The tube and sepals are paler than the petalage setting it off to advantage. Easy to grow, free, vigorous and showy in flower.

BERNADETTE. A fine upright plant whose lateral branches are held horizontally. Sepals are pale rose, double corolla in Veronica "Blue." Medium sized flowers in the popular blue tone.

BLUE & GOLD (Reedstrom) 1956. Plant with lemon yellow medium sized leaves. The blooms are large double, mauve blue. The sepals are palest pink. Blue & Gold is a vigorous growing plant. It will bloom heavily over a long season. It is a new addition to the "foliage" Fuchsias.

BLUE WAVES (Waltz) Double corolla with waved petals of deep campanula violet, tube is flushed pink and the upturned sepals are Neyron rose. The outer petals are splashed rose while the center remains deep violet blue. Can be pinched to make a basket.

BOUDOIR. Large double flowers of daintiest coloring, petals of pale Bishop's violet which fades to pale orchid purple. Sepals of creamy color.

BRIDESMAID. (Patented). Double corolla of pale lilac orchid deepening toward edges. White tube and sepals with light carmine blush. Strong upright bushy grower. Under license with the patentee, we grow our own.

BURGUNDIAN. A double burgundy red flower with dark wine red shadings. Fully double spreading corolla is rather short and of a dark maroon color. The granular sepals are deep carmine as in the medium waxy tube.

CALYPSO (Reiter)—1956. (Trade Mark Reg.). A double corolla containing chaireuse, cream, cyclamen purple and amethyst violet. Rosy cream buds open to long recurved sepals of unfading Rose. Medium upright growth.

CAMILLE (Schnabel)—1956. A flower with a beautifully spreading corolla of Rose Bengal. Sepals are cupped and short, fully reflexed, colored crimson. The upright, bushy, plant has wiry branches and foilage of medium size.

COLONIAL DAME (Hodges) 1956. Fully double corolla light pink; short, broad, outspread sepals rose pink, tipped green. Strong, willowy grower, good foliage, large flowers.

DOUBLE FUCHSIAS

(Continued)

CITY OF RICHMOND (Schnabel) 1956. Medium size spreading corolla of pale pink with white upturned sepals. Medium grower and will flower early in season.

CRINOLINE. A double flower, somewhat resembling Seventeen, but large and paler, broad sepals are rosy white. Corolla clear pale rose; strong upright growth. A beautiful fuchsia, and takes our heat very well.

DESERT SUNSET. (Waltz) 1956—The short white tube is flushed pink while the sepals are a rosy shade rather broad and curl upward. The corolla of smoky rose with splashes of coral and coppery tones turn a brilliant crimson as flower matures. Vigorous spreading growth, free bloomer. Good semi-trailer.

DON PERALTA. Very large flower, usually semi-double corolla, with a long tube and long spreading sepals. Coloring much like the variety Anna.

EASTER BONNET. (Waltz) Double pink upright bushy medium size plant, also grown as trailer. Short tube of flushed rose and broad frosty upturned sepals shading from deep pink at base of petals to pale pink tipped with green. Corolla is a lovely dusky rose pink with slightly deeper shade at base of petals. Flower of excellent substance, lasts several days.

ELECTRA. Double flaring corolla has large center. Petals palest pink veined pink, shorter outside petals flushed pink; strong upright grower.

FANTASY (Waltz). Semi-double, wide open flat flower. Corolla consists of 4 large double purple petals, palest orchid pink at wide open center, and shading to deep dodge purple at edges. The many stamens are extra long and flare out in a novel fashion from the open center.

FASCINATION. Large double pink, deep pink sepals. One of the finest, especially large in cooler climate.

FLUORESCENT. (Trade mark reg.) A very beautiful fuchsia. Tube and long broad sepals white faintly marked pink, semi-double corolla deep lilac orchid, willowy grower. One of our show baskets this year.

FLYING CLOUD. (Patented) Semi-double to double white. Tube and long spreading sepals white; petals with palest rose tint. Flowers are well placed on strong arching branches. An easy upright grower. Makes a fine pot plant.

FRENCH. (Waltz) Tube flushed white, the wide upturned recurved sepals are salmon pink, corolla silvery blue and pale rose mauve, with splashes of pink. The lovely bud when opened is rose shaped and the matured flower flaring open into a rather irregular picturesque form is almost as lovely as the bud. A gorgeous plant in bloom.

GYPSY PRINCE. This excellent variety has very large flowers. Corolla is deep violet purple. Tube and broad upturned sepals are bright red. Be sure to try this new member of the gypsy tribe.

GYPSY QUEEN. A very fine enormous flower with deep crimson calyx and rose-mauve corolla.

HIS EXCELLENCY. Double purple and white. Corolla violet purple and very double. Sepals pagoda type white, buds white. Upright and good growth; should have some shade. May trail.

HOLLYDALE. The corolla is clear pale magenta, close to the color of fuchsia Mrs. Desmond. Growth habit and free blooming quality of Churchill.

HONEY MOON. True sensation in blue. Semi-double wide open veronica blue corolla and red sepals.

INNOCENCE. Double flowers are medium sized semi-double with spreading, glistening white petals, and upturned sepals of pale rose deepening to crimson at their base. Short tube is crimson.

DOUBLE FUCHSIAS

(Continued)

JAMBOREE. A huge flowered double of brightest carmine. Irregular petals of this immense crisp flower are a dazzling color; tube and sepals are of same colors in a slightly less intense shade. Flowers open carmine. They do not fade; plant is upright.

KING'S RANSOM. A vigorous upright bush with many strong branches strung with globular, medium sized double flowers. Broad recurved granular sepals are clear white, while the many petaled corolla is imperial purple.

LACE PETTICOATS. (Pat) Double corolla of serrated petals of white shot with palest blush. Large full flower, outspread white sepals. Is most white in the shade. Vigorous upright grower.

LADY ANN. Double spreading corolla formed of many curled petals, opening purplish-blue, with most outside petals marbled phlox pink. Short tube and broad, spreading sepals are white. Strong, bushy, upright grower with fine foilage.

LUCKY STRIKE. Good blooming hit in striking coloring. Double corolla in blue, rose and pink. Pale flesh upright sepals.

MARIN MONARCH. Large double upright with bright crimson tube and sepals; corolla very good shade of red burgundy. Very tall grower, hardy, free bloomer.

NAVAJO (Nelson) 1956 (Copyright) Smoky red orange double corolla, sepals slightly paler. The bloom expands and grows larger as it becomes older.

MARIN JEWEL (Reedstrom) 1956. A vigorous growing bush making a good pot. The corolla is double, mallow purple, with apricot to pink shadings at the base of the petals. The graceful up-turned sepals are flesh pink, slightly darker and iridescent on the under side.

MOONLIGHT. (Waltz) Short tube and long frosted sepals are greenish white tipped with green, the corolla flesh pink has petals of light rose. As flower matures the colors deepen, and it flares open slightly. This plant is self branching and very free flowering. Medium sized clean foilage. Hardy, heat resistant.

OLD SMOKY. A double, vigorously producing large flower of novel coloring. Tube and sepals flesh pink, underside of sepals pink, corolla old rose with a smoky cast. Upright grower useful as trailer also.

PAPA BLUESS Pat Pend. (Tiret) 1956. Double corolla of deep Bishop Violet slightly marbled at base with delicate crimson. Inner part of recurved sepals are carmine rose and outer part pale rose and ivory.

PAPER DOLLS (Reiter) 1956. (Trade Mark Reg.). Similar to Flying Cloud but they say it is larger and more white. The plants are strong, of medium height and with larger leaves.

PARTY FROCK. (Trade mark reg.) Upright to four feet. Very large semi-double corolla of pastel blue. Outer petals seem hand painted with a soft pink. Long rose colored sepals.

PETITE. (Waltz) A small double pastel with bright lilac blue corolla and soft rose tube and sepals. Vigorous bushy grower ideal for potting.

DOUBLE FUCHSIAS

(Continued)

PINK FAIRY. (Waltz) Large double clear pink corolla and creamy white tube with broad recurving sepals of palest rose. Petals of beautiful clear pink, slightly deeper near base when fully matured often opens wide, giving a star-like effect to flower. A good self-branching upright with beautiful clean, dark green foliage which needs no pinching back to make a show pot.

PINK PARFAIT. The double spreading corolla extends its petalage between the sepals, petals appearing at the sepal edges. The entire flower is a clear shade of "strawberry ice-cream pink." Does not fade. Arching branches; medium foliage.

POLAR SEA. Strong upright. Double beautifully shaped corolla of darkest imperial purple marbled white at base. Tube and sepals white.

PRES. FELIX FAURE. A double of the darkest purple splashed with crimson. Will take heat; vigorous.

REVERIE. Medium sized double in the popular pink shade. Recurved sepals are soft pink, corolla pale tyrian rose; petals are waved and spreading. An upright grower; quite heat tolerant.

ROSE CHIFFON. Semi-double trailer with apricot overtones. Exceedingly free bloomer, and the globular, medium sized flowers are a blend of rose bengal in the corolla with rose madder sepals. Will make a very large showy plant in a 12" pot. In the ground, will grow to 6-7 ft.

RUBEO. Vigorous bush with large tu-gose foliage. Corolla ranging from deep rose bengal on center petals to crimson on outer ones; pale carmine tube, sepal carmine.

SANTA LUCIA (W. Munkner) 1956. Double orchid pink, prominent rose veining in all petals, outside petals overlaid salmon-rose. Outside petals are attached to the broad, spreading deep rose sepals, giving the open flower a round "powder puff" appearance. Strong upright grower, large flowers.

SAN LEANDRO. Double magenta to vermilion, tube and sepals carmine; upright grower; big flowers, heat tolerant.

SAPPHIRE. (Waltz) Double corolla of deep purplish blue and wide frosty sepals of clear pink inside, flushed pink outside, short creamy white tube. Ideal potted.

SEA SPRITE. Heliotrope and white double; corolla loose double pale violet. Sepals spreading white. Strong upright grower. Good branching habit, large flowers pale heliotrope; cool conditions best.

SHARON. Semi-trailing, flowers well formed and double, palest scarlet sepal. Petals rose bengal splashed with extensions of geranium lake at base.

SHY LADY. (Waltz) (Trade Mark Reg. 1955) An exceedingly lovely double rose like flowers, exquisitely formed. Short tube, broad pointed upturned sepals of ivory white; corolla creamy ivory opens into a symmetrical formal flower. At maturity its many petals turns a delicate light peach, upright grower, self branching, free bloomer. Foliage dark green medium size, ideal potted plant; very showy.

DOUBLE FUCHSIAS

(Continued)

SNOW BALL. Large white double. Corolla creamy white, very double. At base tiny flush pink if in sun. Sepal reflexed and long. Vigorous grower, need moist conditions in warmish shade with good drainage.

TELEVISION. Large double tube and sepals white outside, light pink underneath; corolla deep orchid splashed with fuchsia pink. Will trail.

THE ARISTOCRAT. (Waltz) White longish tube has beautiful wide upturned sepals pale rose with white tips; serrated creamy white petals of corolla are slightly veined rose at base of tube; strong upright grower similar to Gypsy Queen. Heat resistant.

TITANIC. Double corolla ranges from carmine at base of petals, to deep petunia purple toward edges which have a light "bead" margin. Short carmine tube, thick recurved carmine sepals; will trail.

TREASURE. Fine upright growth, abundance of flowers. Light orchid double corolla of large size; calyx neyron rose.

TUTU. Large flat double flowers have dense spreading irregular lobed petals are of light Rhodamine Purple flecked with aster violet. Spreading sepals are rose inside and greenish white outside.

ULTRAMAR (Reiter) 1956. Very double corolla opens to a delicate gray blue and the base of the large incurved petals are stuffed with short white streaked irregular petaloides. Creamy white bud and long broad recurved sepals display a white iridescent inner surface. (Trade Mark Reg.).

VIENNA. One of the best of the Gus Niederholzer blues. Tube and sepals bengal rose. Petals lilac blue, splashed with both light and bengal rose. Extra long pistil and well formed stamens complete this flower. Free bloomer.

VIOLET GEM. A large semi-double flower of exceptional beauty, with short stem and upcurved sepals of carmine. The widespread petals of deep violet have just a touch of carmine at the base. Prefers shade. Does not fade.

VOODOO. (Patented). Double corolla darkest of any large double fuchsia a deep purple violet. Short tube and long sepals dark red. Very good.

WHITEMOST. Fluffy perfectly white corolla and faintly pink sepals; floriferous. A sensational beauty. Will trail.

WHITE WONDER. A double flower of snow white; wide sepals are crimson. Vigorous.

WINSTON CHURCHILL. A double corolla magenta pink, shaded blue, upturned sepals rose pink; strong medium high grower. Good sized flowers and a continuous bloomer.

YONDER BLUE. Double corolla of deep blue and broad upturned sepals of rose red. Large flowers on a vigorous upright growing type.

SINGLE FUCHSIAS

AURORA SUPERBA. Sepals and tube of light orange apricot, corolla of deep orange peach.

CARDINAL. Giant single scarlet red flowers in great profusion. Strong semi-climber.

CARMEL BLUE. (Hodges) 1956. Long single corolla beautiful blue; long white tube and narrow, outspread white sepals flushed palest blush on underside. Vigorous upright bush with excellent foliage and lots of flowers. The very attractive color contrast should be most popular.

CHANG. Single bright orange; flesh sepals flushed red. Strong upright grower, free bloomer.

CITATION. Single white corolla. Tube and saucer-like sepals light to rose pink. Bushy upright grower. Noted for abundance of big flowers. Deep green foliage. Considered tops.

ERECTA NOVELTY. Single white and pink, corolla margined with rose. Erect flowers.

GUINEVERE. One of the finest in the large single. Tube and long spreading broad sepals are white; corolla a beautiful shade of blue violet.

LITTLE BEAUTY. Dwarf compact bush. Very free flowering with lavender blue corolla changing to rosy lavender; deep pink sepals.

LORD BYRON. Small black purple and red. Corolla deep velvety purple; sepals bright scarlet. Dwarf bushy habit.

MARIN GLOW. Bush vigorous self-branching to 4 ft. Corolla, single purple fading almost phosphorescent. Very good in pot or tub. Heat resistant.

MISSION BELL. Single bell-shaped flaring flower. Stem and sepals bright crimson, corolla royal purple, fading to magenta. Strong, upright grower.

MORNING GLORY. Single orchid pink and pale pink. Corolla orchid pink flaring as Sunset; upturned sepals pale pink. Free blooming, self-branching.

MRS. RUNDLE. Very long tube and pointed sepals of flesh color with vivid orange corolla. Will trail.

OTHERFELLOW. Single, deepening from near-white at base to coral pink at petal edges; tube and short green-tipped sepals are waxy white. Strong upright grower. Very free bloomer.

OTTO. Popular because of the abundance of large purple and crimson flowers, and its beauty as a pot plant.

PERKY. Sepals waxy white, deep pink sharp pointed tips. Single pink corolla. Foliage and flower small.

PINK CLOUD. (Waltz) 1956. Large single pink upright; short white tube; long wide upturned pink sepals curl slightly at tips, buds are long and pointed. The corolla has four overlapping petals of clear pink, flaring at maturity. Dark green firm foliage; growing habit of Sleigh Bell which is one of its parents can be used as bush, pillar or espalier. A free bloomer and the largest single pink yet. A very striking flower.

ROSE OF DENMARK. Lustrous rose pink, recurved sepals white. Medium sized flowers and free bloomer.

SCARLET BABY. Graceful single red and purple; bright red curved sepals; pistil and stamen long; grows vigorously.

SINGLE FUCHSIAS

(Continued)

SLEIGH BELLS. All white beautiful single flower. Has long thin pointed upturned sepals tipped green, and a slim white tube. The single corolla forms itself into a perfect bell. Ideal espaliered, can also be grown as a bush.

SUNRAY. Ornate variegated foilage, silvery white and green. Rosy purple corolla and salmon sepals.

SUNSET. A well shaped bush with fine foilage, pale pink calyx, and wide open single corolla of brightest sunset color.

VIVIEN LEE. Medium size single flower with very pale pink corolla and slightly darker sepals. 3 ft. upright.

1 1 1

DOUBLE FUCHSIAS TRAILING

AFTERGLOW. Plant of medium vigor with arching branches and quantities of double flowers in the light flame colorings. Medium sized flowers open from cream colored buds unfolding into frilly, double, powder-puff flowers.

ANNA. Double corolla with outer half of petals strong magenta while the base of petals and the sepals and tube are strongest carmine.

AUNT JULIANA. Sport of Uncle Jules, identical in form of growth. A large double, pale lavender blue corolla, with red upturned sepals.

AVALANCE. A white star-like double flower with broad, thick white sepals edged with rose. Many tufted white petals make up the spreading corolla. The thick branches produce flower clusters at their tips. In warmer climates Avalance is willowy.

BALI HI. (Tiret 1955; Pat. Pending.) A beautiful full double corolla of blue violet fading to rose violet, slightly variegated in later shades. Sepals are pagoda like and colored ivory rose. Very heavy and continuous bloomer. Medium to large leaves of a slight olive cast. Makes fine basket.

BLOOMER GIRL. The short tube and long sepals which turn straight up are bright carmine. There are two tiers of pleated petals; the longer ones are pale pink veined carmine, and tipped at the base of the flower with carmine; the upper tier, with the same shadings, are pleated in tight at the base of the flower giving a puffed out appearance.

BLUETTE. Tiny lavender blue and rose red. Corolla double, lavender blue; sepals rose red. Dainty little plant covered with lovely tiny flowers. Pretty trailer.

CARNIVAL. Pat Pend. (Tiret) 1956. Double of brilliant Spirea Red and glistening, frosty white sepals tinted on outer sides with delicate pea green. Long white tube, a heavy bloomer.

CHIQUITA. This plant is a hanging-pot trailer exclusively, with medium double flowers of pale rosy orchid. The clean coloring of the pastel flowers, the green dense foliage, and absence of fading give Chiquita a unique quality.

CONSPICIOUS (Tiret) 1956. Double compact corolla of clear China Rose, pale rose recurved sepals changing to lighter shade on the tube. A good grower and heavy bloomer.

DOUBLE FUCHSIAS TRAILING

(Continued)

CROWN JEWELL. Double widespread ruffled corolla, an attractive glowing rose; greenish tube and long broad white sepals that are faintly blushed and of good substance. Medium large leaves and large flowers.

ENCHANTED. (Patented) Large campanula blue and rose red double flower. Corolla blue purple overlaid with fuchsia pink. Sepals rose-red. Natural trailer.

FOREVER YOURS. (Tiret) 1956. Large, semi-double corolla of Campanula Violet, heavily marbled at base with light pink and rose madder, long, graceful recurved sepals of pale rose shading to delicate pale green at tips. Semi trailer.

GUS NIEDERHOLZER. A large, double flower of veronica blue. Sepals are carmine. The flower opens bell fashion, fading to a brilliant orchid shade. Best as trailer or standard. Free blooming and self-branching.

LILIBET. A double soft rose corolla flushed geranium lake, long tube and recurved white sepals flushed pale carmine. Beautiful long pointed, green tipped buds. Fine natural trailer.

MAYFLOWER. (Hodges) 1956. Spreading corolla light pink, sepals deep pink to rose, conspicuously tipped green. Trailing grower with good sized flowers, best displayed in a hanging basket. Somewhat larger and softer pink than the well known South Gate.

MOLESWORTH. Medium size, of perfect shape, scarlet tube and sepals. Full double snowy white corolla. The branches are pendant.

MONSTERA. (Reedstrom) 1956. Semi-double corolla is magenta and mottled, slightly paler at the base. Buds are deep crimson and sepals turn back over an extremely long stem. Natural trailer.

NONPARIEL. A very fine grower and most floriferous, ivory pink calyx and pale purple-blue coloring.

POTENTATE. An all-purpose arching grower, suitable as a climber or for a hanger. Huge flowers of Rubeo type, the long stemmed buds are rose madder tapering to pale rose at the tips. Long tubes and recurved sepals rose madder.

PLUM GLORY. A well balanced flower on a naturally self branching trailer. Plum Glory is so named because of the globular corolla and color which is an "off shade" of petuna purple and plum like in hue. The recurved sepals are broad, granular and deep carmine. Is exceptionally free bloomer.

PIO PICO. (Pat. Pend.) Double corolla opens a violet purple, turning to wine purple. Smaller outer petals splashed with fuchsia pink. Short tube and broad, reflexed sepals palest pink, inside deep pink. Strong growing espalier or hanger with good foliage. Very large flowers feature a long corolla and vivid coloring.

PURPLE NIGHT. (Waltz) Natural trailer with medium to large double flowers. Has short white tube and buds slightly tipped with pink at base of tube. Uprturned sepals are frosty white flushed pink. Corolla a deep royal purple in heart of the flower, the outer petals are heavily marbled with white and phlox pink. The long willowy foliage often trail 4 to 5 ft. One of the finest trailers.

SAN JOSE. A sport of San Pablo, identical in growth and size of flowers, but somewhat more trailing. The corolla is white, sepals rose pink to rosy red, depending on exposure. San Jose will be a good seller because it is a hanger, has the popular red and white coloring and very large flowers.

SAN PABLO. A sport of San Mateo with even better trailing habits. Flower same form and size. Color rose orchid with rose pink stem and sepals.

SAN MATEO. Very large double victoria violet corolla, fuchsia pink splash-es. Leathery pink calyx. Fine hanger.

DOUBLE FUCHSIAS TRAILING

(Continued)

SO BIG. (Waltz) A double flowered pink and white natural trailer, with rather long rosy pink tube. The long stemmed pointed buds are huge and open slowly into exotic like blooms. Corolla is creamy white with long upturned sepals of pale pink which often measures five inches from tip to tip.

Foliage a bright green and in a basket or standard well cared for and pinched back early, will have lush almost tropical growth. Likes shade or filtered light.

SOUTH GATE. Double pink of very nice form. Corolla neyron rose; tube and sepals white tipped green, very good.

STELLA MARINA. Seven to eight ft., but can basket. Semi-double long corolla, companulu violet heavily marked light crimson pink.

STREAMLINER. (Patented). Long, thin tube and long twisted sepals of bright crimson. Corolla semi-double and of the same shade. Natural trailer, free bloomer. Flowers are large.

SUMMER SNOW (Waltz 1956. Trade Mark Reg.) Creamy white semi-double medium size, almost yellow cast to bloom when bud first opens. The white tube and the sleek graceful white buds tipped with green hang from long stems. Recurved white sepals. Corolla white with over-lapping petals of good substance for long keeping and heat resistance. Plant bloomed continuously throughout the season with drifts of creamy white flowers along trailing branches. Here is an outstanding trailer that will be the pride of any garden. Easy to grow.

SWINGTIME. Double corolla milky white. Tube and short, upturned sepals shiny red, inside of sepals rose red and of crepe texture; good grower of branching habit. Early free bloomer. One of our most popular trailing varieties.

TRAIL BLAZER. Best described as a double red spider, with sepals a little paler color. Real trailer, branches hanging directly down sides of basket.

TUMBLING WATERS. A double flowered purple trailing variety. Double flowers are large, well reflexed sepals of dark crimson on outside, light crimson inside. Type trailer in the big purples.

UNCLE JULES. Double violet blue, sepals crimson. Foliage is small, thick, and the growth scandent. Giant double of fine "blue" coloring.

VAGABOND. Large double corolla cercise-red flushed geranium lake on outer petals. Long broad recurved sepals deep red. Very strong grower. Large leaves with enormous flowers. Very fine.

WEDDING GOWN. (Reedstrom) 1956. A delightful near white upright or basket. The corolla is very double white with over petals that shade to pink at the base. The dainty recurved sepals are palest blush pink. The foliage is very dark green.

1 1 1

SINGLE FUCHSIAS TRAILING

AMERICA. Long thin tube and sepals rose madder on the outside, solid crimson on the inside. Single short corolla deep crimson.

AUTUMNALE. Highly colored foliage of bronze, orange, yellow and green. Grow in sunnier location. Pinch back frequently.

CARIOCA. Large, single, spreading corolla of self rose shadings, with long upturned rose sepals. A natural trailer with medium-sized leaves. A very free bloomer, heat resistant; easy to grow.

CASCADE. Masses of large single blooms, long pointed sepals white flushed carmine and deep carmine corolla, spread of sepals usually about 6 inches.

SINGLE FUCHSIAS TRAILING

(Continued)

GOLDEN MARINKA. A sport of Marinka with the same easy, self-branching habit of growth, deep red flowers and red stems. However, each leaf is variegated with gold, especially near leaf edges, turning to cream as the leaves mature. Veining in leaf is red and leaves are flushed red on underside. Unlike most variegated fuchsias, EVERY leaf on Golden Marinka is variegated. One of the best novelty hangers in years.

JACK SHANAN. The long tube and pagoda-shaped sepals are of the palest rose bengal and the petals of the same color are margined with a darker shade.

MANTILLA. Trailer with soft willowy branching growth. Bronzy foliage. The flowers are deep carmine. Tubes 3 inches in length. The petals are spreading with pagoda-like sepals. Free bloomer.

MARINKA. Almost a self color with rosy scarlet corolla and crimson scarlet sepals.

MAUVETTE. A single natural trailer. Tube and sepals flushed pink. Corolla overlapping petal pale pink with no other shadings. Medium sized bloom with small leaved foliage of good substance. Very pretty.

MISS CALIFORNIA. Single to semi-double. Corolla faintest pink. The sepals medium pink, shaded with deeper pink. Does best in cooler weather.

PINK ELEGANCE. (A Waltz Garden patent, No. 143,684). Tube long sepals upturned, salmon pink on the inside, fushed pink on the outside. The bell-shaped corolla has overlapping, often pleated petals of bright phlox pink wide spreading at petal tips. Prefers morning sun, or filtered light.

PURPLE SAGE. Single saucer shaped deep purple corolla opening perfectly flat with recurved deep red sepals. Medium grower.

RED CAP. Large single flowering corolla of a showy cerise rose with a flush of orange at darker petal edges. Thick tube and sepals bright red. Best used as a hanger where the many wide open flowers displayed to greatest advantage.

RED SPIDER. The spidery flowers have a long tube and exceedingly long narrow horizontal sepals of the deepest crimson; long downward pointed petals of deep rose madder veined and margined deep crimson.

STARRY TRAILS. (Waltz) 1956. A natural single trailer, very long graceful buds and wide spreading sepals. The tube, streamlined buds and long thin sepals are rosy pink. Corolla has overlapping petals of bright carmine, tipped with creamy white at base of tube; this flower does not fade but retains its glowing rich shade. A very prolific bloomer.

TINKER BELL. Long single white corolla, veined soft pink. Tube and long, spreading and then upturned sepals range from white to pink, sepal inside soft pink, deepening to carmine at tips. Best displayed as hanger. Profusion of fairly large flowers of fine proportion, soft coloring. Small foliage.

FUCHSIAS FOR SPECIAL PURPOSES

If you are planning a fuchsia garden or wish to train fuchsias tree shape, pillar, trellis, etc., we would be pleased to help you select the proper varieties.

Join The American Fuchsia Society! They publish a monthly bulletin which is helpful to fuchsia lovers and shade gardeners. Dues at \$2.00 per calendar year. Address: Mr. C. T. Le Hew, 1633 Moreland Drive, Alameda, California.

A MINIATURE MANUAL FOR FUCHSIA CULTURE

SOIL—Is to be rich in humus, water absorbing by the addition of leaf mold, peat and organic fertilizer well mixed in. Loose subsoil is necessary to provide for drainage. A good mixture is made of one third leaf mold, one third good soil and one third well rotted manure.

WATER—Keep soil damp at all times and frequently give overhead shower and a fine moderately sharp spray on the underside of foliage to discourage aphids, white flies, thrips and spittle bugs.

AIR—Should at all times contain a great deal of humidity by keeping walks and walls or fences wet. Strong wind or sharp draft is to be avoided.

LIGHT—Is essential; hot and direct afternoon sunshine is to most varieties harmful. Give morning sun only, wherever possible; or sunshine filtered through trees or overhead lattice work. Dark walls or fences in a shady place should be painted a light reflecting color.

FERTILIZERS—A mulch of manure is advocated with additional feeding of commercial fertilizers feeding often, always careful to use as directed. In the spring your fertilizer should be high in nitrogen; and phosphates later in the season to bring out the blooms. There are many balanced fertilizers on the market at present.

INSECT PEST CONTROL—Persistent vigilance and frequent use of sprays to keep pests out of your garden is much more effective to drive them out after occupation. Insecticides are plentiful.

CARE OF GROWING PLANTS—Most varieties have brittle branches and require protection by stakes, by lattice work or by fastening to walls or fences. In order to shape plants to fit requirements or wishes, eliminate all unwanted growth at any time. To extend flowering season and to improve the quality of blooms pick all flowers as soon as they have passed the prime of their life. Never let seed pods or berries grow. Hoeing near the plants is bad. A three to five inches deep mulch of some organic litter held down around the plant as far as the roots are suspected to spread and kept moist will keep the soil loose and cool in summer, also provide the best protection against frost in winter.

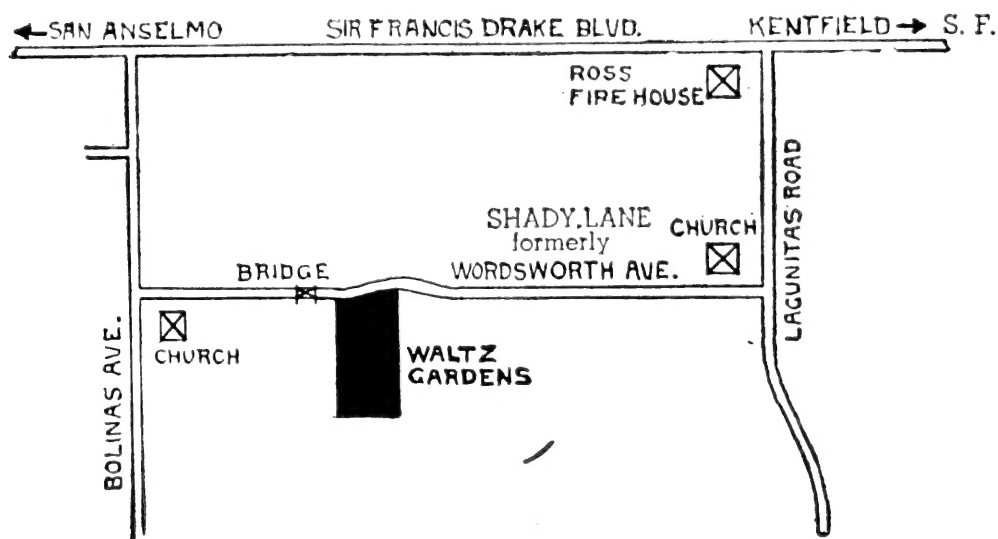

PRUNING—At the season of complete or near dormancy is essential to produce new growth which in turn gives the best flowers. All vigorous branches should be cut back to one or two pairs of dormant buds. The very spindly twigs and those interfering with others are best eliminated entirely by gently breaking them off at their base. All pruning has to be controlled by the consideration of what the plant is desired to be like in the future. Parts of plants damaged by frost should be cut out entirely. Plants frozen down to the ground will produce good new plants from the roots if protected by a mulch.

A LATTICE CONSERVATORY OR LATH HOUSE—Is the greatest boon to the fuchsia specialist. It provides the basis for the nearest imitation of the jungle atmosphere in which fuchsias feel at home. It will offer to you the chances to join the ranks of fuchsia connoisseurs who grow the best varieties to real perfection.

POT CULTURE—As the wave of interest in the new fuchsias spreads to many parts of the country where the climate is less favorable to outdoor growing, pot culture gains in importance. But even in the most favored Pacific regions potted plants are highly treasured for periodical display on porches, verandas, on steps leading to home entrances. Plants in pots need watering daily. Extra rich soil and more feeding in liquid form during the flowering season is needed. This is especially important for hanging pot plants.

HOW TO FIND OUR GARDEN

PLEASE REMEMBER WE ARE CLOSED THURSDAYS.
